PROJECTS

Jan 2023 (complete)

'MARTINO HQ' WEBSITE
martino.store
To learn Vue/Vite, I made a demo website implementing features like VueRouter, Components, and more to better understand the process in creating scalable Vue projects.

Jan 2022 (ongoing)

PROJECT LURK (HORROR GAME)
A small-scale, high-detail horror game. Incorporates bleeding-edge Unreal Engine 5 features (Nanite, Lumen, etc.) to create an experience that's never been possible before.

WORK EXPERIENCE
